SUMMARY

I am a full-stack engineer motivated to master my skills and grow professionally. I am confident in my ability to program, develop and learn using front end frameworks and technologies.

TECHNICAL SKILLS

HTML/CSS

Javascript/Typescript

React

Node.js

SOFT SKILLS

Analytical Skills

Bilingual (French/English)

Detail-Oriented

Adaptability

Teamwork

PROFESSIONAL EXPERIENCE

Edgio, Solutions Engineer

Feb 2022 – Mar 2024 | Remote, USA

- Successfully executed 200 Proof-of-Concepts, achieving over 95% success rate in improving Core Web Vitals for prospective clients globally.
- Analyzed website performance using third-party tools like *Webpagetest*, *Pagespeed Insights*, and *Google's DevTools*.
- Communicated findings effectively to the sales team through presentations and written reports, facilitating informed sales presentations.
- Implemented front-end optimizations through JavaScript/TypeScript modifications and tracked performance improvements using Real User Monitoring (RUM) solutions.

Sogeti Hightech, Software Support Specialist

2016 – 2017 | Mougins, France

- Provided comprehensive customer support and software maintenance services, including troubleshooting, database management, and scripting for back-end server communication, resulting in enhanced support efficiency.
- Collaborated cross-functionally with product and programming teams to define and implement product improvements, while rigorously testing software to ensure bug-free deployment and optimal performance

Air France, Middleware Intern

2014 – 2015 | Valbonne, France

- Developed and executed a Rest/JSON to SOAP/XML Connector POC using Apache Camel, Java, and Tomcat7.
- Conducted performance analysis and benchmarks, presenting results to department managers and advocating for OpenSource migration benefits at Air France.

EDUCATION

Master in Software Engineering, University of Nice-Sophia

2015 | Nice & Sophia-Antipolis, France

Full Stack Web and Mobile Development Bootcamp, Nucamp

Sep 2021 | Remote
